

Merchandise Name 2,3-Dichloropyridine
CAS Registry Number 2402-77-9
EINECS 219-281-8

Molecular Structure

Molecular Formula $C_5H_3Cl_2N$
Molecular Weight 147.99

Density: $1.388g/cm^3$
Melting point $64-70\text{ }^\circ C$
Boiling Point: $192.5^\circ C$ at 760 mmHg
Flash Point: $87.5^\circ C$
Water solubility Slightly soluble
Stability: Stable under normal temperatures and pressures.

Hazard Symbols

Risk Codes R22;R36/37/38
Safety Description S26;S37/39
Packing Group III
Hazard Class: IRRITANT

Appearance: White to slightly beige crystalline flake

Assay(GC) $\geq 99.5\%$

Moisture $\leq 0.1\%$

Packing Group III

Transport packing: jumbo bag

HS Code: 2933399090

Storage Precautions: Keep container closed when not in use. Store in a tightly closed container. Store in a cool, dry, well-ventilated area away from incompatible substances.
